Changes to this document:

- Overview the plan once a year with key stakeholders and members
- Any change to the Strategy, with significant impact, should be made with the agreement from the key stakeholders in the country level and SBN global team.
- Changes in KPIs may only be made after a session of strategy review
- The overall SBN team should be notified when any change is made to the broader strategy document, excluding a summarized strategy (the strategy in one page).
Approval and endorsement

Approved and endorsement of the SBN Laos strategy

The SUN Business Network Laos Strategy for 2018 – 2022 was developed, approved and endorsed by a team of SUN Business Network stakeholders including representatives of the National Nutrition Committee Secretariat, the World Food Programme, the European Union, UNICEF, Population Services International (PSI) and Save the Children. This strategy was agreed and supported by the SUN Business Network members present in the meeting of 29 May 2019.

These key stakeholders are responsible for achieving all the objectives, and the direct Key Performance Indicators (KPIs) set out in this strategy, following the guiding values of the SBN Laos.

The updates and revisions of this strategy must be carried out only under the procedures established in the Preliminary Notes.

The SBN Laos Strategy 2018 - 2020 was approved and endorsed by:
1. **Executive Summary**

The nutritional landscape in the Lao PDR has greatly improved and economic growth has been high over the past decade. However, there are still many Lao people suffering from different forms of malnutrition.

The “Scaling Up Nutrition” (SUN) Business Network (SBN), as part of the SUN Movement, offers a unique opportunity to catalyze stronger private sector business engagement in nutrition to help the Lao Government fighting malnutrition for a healthier and more productive population.

This document outlines the development and implementation of the SUN Business Network five year Strategy in the Lao PDR (2018-2022). Based on intensive research and analysis of the private sector landscape, four key priorities were identified:

1. **Establish Business Network & Community Profile**
2. **Promote Improved Nutrition / Health Initiatives at the Workplace**
3. **Support Development of & Availability for Nutritious Foods / Fortified Products**
4. **Increase Nutrition Awareness, Demand and Nutrition Policy Perception**

These key priorities are the foundation to build initiatives towards reaching our SBN vision of “engaging the private sector in improving nutrition in Lao PDR”. Detailed activities, goals, expected impact and vision beyond 2022 provide a comprehensive overview of the strategy, which is also conveniently summarized in the section “Strategy on a Page” within this document.

The report concludes with an overview of the SBN structure and organization, giving insight into the roles and responsibilities of the SBN team members, the rationales and benefits of the SBN membership and the budget needed.

Through this strategy, we can build a strong and leading private sector business environment, which helps promoting and scaling up nutrition in Lao PDR.
2. **Background & Overview**

Scaling Up Nutrition (SUN) is a global movement which unites governments, civil society, the United Nations, donors, businesses and researchers in a collective effort to improve nutrition and eliminate all forms of malnutrition.

The SUN Business Network (SBN) is the private sector branch of this movement, on a global level convened by GAIN and WFP, and the network supports SUN Countries to develop national business engagement strategies for scaling up nutrition.

In Lao PDR, the SUN Business Network was officially launched in May 2018, and under the leadership of the National Nutrition Committee Secretariat, it is supported by the World Food Programme and the European Union, in collaboration with UNICEF, Population Services International and Save the Children.

Despite impressive progress in human development and poverty reduction, Lao PDR is still facing malnutrition related problems. Approximately 33% of children < 5 years of age (Cu5) suffer from malnutrition and stunting, 9% are wasted and 21% underweight. Lao population shows also a high prevalence of micronutrient deficiencies (especially Cu5, pregnant and lactating women), and there is an increasing trend to “overnutrition” (obesity) and “non-communicable diseases”.

Malnutrition generates economic loss of approximately USD 200 million per year, caused by lack of diet diversity, low education levels, lack of basic health care & sanitation, poor water access, traditional gender and ethnic norms around food utilization and in some areas inadequate food access.

Business needs to be engaged in nutrition to generate demand for nutritious products and services, and focus on innovation & product development, which can make nutritious food more affordable and desirable and may create new markets to increase sales and profits.

Good nutrition in the workforce, proper sanitation conditions and promoting healthy behaviors through nutrition education can also contribute to improved productivity and enhanced corporate reputation.
The SUN Business Network is a potential for all Laos companies to support Government efforts to fight malnutrition in Laos by aligning commercial priorities with the National Nutrition Strategy and Action Plan.

This strategy lays out the purpose, vision and key objectives of the SUN Business Network Lao PDR for the next 5 years, 2018-2022 and how we plan to achieve those parameters.

The role of the SUN Business Network team herein is to coordinate those activities in order to improve nutrition among Lao consumers as we support our member to grow their business.

Objectives:

• Identify best way for SBN to enter the Lao Market, identify priority areas and initiatives, and develop a 5-year strategy and work plan.
• Provide the tools to build awareness of the importance of nutrition in the private sector business community, bring companies together under a shared and diverse platform and engage with companies to improve and “scale up” nutrition in Laos.

Purpose:

Establish a Business Network that champions and aligns behind the National Nutrition Strategy through mobilizing the private sector’s commitments to scale up nutrition in Lao PDR.

Vision:

SBN to become a leading platform and the focal point for promoting nutrition in Laos’s private sector. To ensure this vision, SBN will work to create an enabling environment for business to commit to nutrition.

Advocacy and promoting improved nutrition via private sector will be the core to the work of SBN in Lao PDR.

- Based on learnings from desk research, analysis of the private sector landscape, key stakeholder mapping and interviews during member’s and facilitator’s meetings, as well as input and materials from the SBN Global Team, we identified **4 key priorities**.

- Each of the 4 key priority leads to a minimum of **4 priority initiatives**, complemented by **performance metrics** (direct key performance indicator (KPIs), within direct control of the SBN team) and **desired outcome** suggestions (indirect KPIs, beyond the control of the SBN team).

- Detailed descriptions are displayed on the following pages, and summarized on the “Strategy on a Page”, page 13.

- These 4 key priorities form the foundation for the priority initiatives, and work towards meeting the SUN Business Network’s vision.

- A project timeline with activities in 2018 / 2019 and our “Vision Beyond 2022” are also displayed in this section.

- The 5 year strategy will be shared, discussed and validated by the SBN Facilitator’s team and a final version will be issued to serve as the strategic foundation for the SUN Business Network in Lao PDR – in line with the National Nutrition Strategy and Plan of Action (2016-2020).
3.1 Identify Priorities

1. Desk Research
   - Government policies, regulations and initiatives
   - Other Documents on Food, Food Security, Nutrition
   - SBN global documents, Strategy Development
   (see Appendix A10)

2. Stakeholder Mapping
   - List of 555 Stakeholders, within 20 Economy Sectors, thereof 441 Private Sector Businesses (see Appendix A1)
   - Stakeholder Mapping of 17 SBN members (see Appendix A2)
   - Description of business
   - How can they support SBN?
   - Expected support of SBN?
   (see Appendices A1, A2)

3. Stakeholder Consultations
   - Consultations with
     - Donor (EU)
     - Civil Society (PSI, Save the Children)
     - UN (WFP, UNICEF)
     - Government (NNC, MoH)
     - Chambers of Commerce
     - Business Association
     - Private Sector Businesses
     - SBN members

4 KEY PRIORITIES

1. Establish Business Network & Community Profile
2. Promote Improved Nutrition / Health Initiatives at Workplace
3. Support Development of & Availability for Nutritious Foods / Fortified Products
4. Increase Nutrition Awareness, Demand and Nutrition Policy Perception
## 3.2 Priority Initiative (1)

### (1) Establish Business Network & Community Profile

<table>
<thead>
<tr>
<th>Activity</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Create membership platform, recruit members, grow network, develop and share strategy</td>
<td>Develop comprehensive stakeholder contact list; sign up businesses on ongoing basis; liaise regularly with existing and prospective members (quarterly); develop and share/endorse SBN strategy with SBN community and stakeholders</td>
</tr>
<tr>
<td>Provide global &amp; regional SBN partnerships &amp; networking opportunities</td>
<td>Share best practice internationally; increase knowledge on nutrition; generate positive SBN publicity</td>
</tr>
<tr>
<td>Establish an active advisory &amp; project management framework</td>
<td>Establish Facilitator’s Group with members from donors, civil society, UN, government; provide strategic guidance and review progress; prepare for, coordinate and convene quarterly meetings</td>
</tr>
<tr>
<td>Explore finance and resource opportunities</td>
<td>SBN to help and provide linkages to donors (local and global) for financing and funding of member projects; seek support from global team if needed</td>
</tr>
</tbody>
</table>

### SBN performance metrics (by the end of 2022)

<table>
<thead>
<tr>
<th>Metric</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>40+ members</td>
<td>Have at least 40 formally registered members which meet membership criteria</td>
</tr>
<tr>
<td>SBN events, meetings and others</td>
<td>2 SBN events / year; quarterly facilitator’s &amp; member meetings; participation at conferences, trade fairs, chamber meetings</td>
</tr>
<tr>
<td>Advocacy tools, media &amp; social media</td>
<td>Develop and update newsletter, flyers, PR materials; maintain and update global website and facebook info</td>
</tr>
</tbody>
</table>

### What success looks like (by the end of 2022)

<table>
<thead>
<tr>
<th>Success Indicator</th>

<tbody>
<tr>
<td>Satisfied and active membership base</td>
<td>Members see network as valuable contribution to growing the nutritious food market and take an interest in the network by responding to emails, attend events; members take commitments seriously; prospective members reach out to the SBN to request to join, unsolicited</td>
</tr>
<tr>
<td>Established international / national member partnerships</td>
<td>Strong networking and communication between members of the global and national business network; knowledge and technical support</td>
</tr>
<tr>
<td>SBN is focal point for nutrition &amp; food issues &amp; linkage to finance opportunities</td>
<td>SBN is seen as the primary and focal point of contact on all nutrition and food issues, investments, government contact as well as a linkage to support and possible finance and funding opportunities</td>
</tr>
</tbody>
</table>
### 3.2 Priority Initiative (2)

#### (2) Promote Improved Nutrition / Health Initiatives at Workplace

| Advocate for improved nutrition and health at the workplace | Organize, facilitate and support interested parties (workplaces health program providers, prospective companies); share information with SBN members and other stakeholders on the benefits of a healthy workforce |
| Encourage, promote and support workforce nutrition / health initiatives | Promote improved nutrition and health (workshops, nutritious meals for staff), maternity leave, breastfeeding-friendly areas, and also on nutrition related topics such as obesity, non-communicable diseases and pregnancy/lactating diets |
| Provide organisations with guidance, trainings, tools & information | Determine and implement effective methods for providing advice, guidance or training through workshops, events, practical tools, research and information; share tools and templates with members |
| Share best practice and knowledge on initiatives | Meet regularly with existing and prospective members in order to share and increase knowledge on improving health and nutrition at the workplace |

**SBN performance metrics (by the end of 2022)**

| Identify and approach 4+ potential partners | Identify at least 2 companies with potential to engage in nutrition and 2 to engage in health initiatives; approach companies and provide benefits of improved nutrition / health to the workforce, discuss potential opportunities of areas of engagement |
| 1+ workshop per year on improved nutrition / health at the workplace | Have at least 1 workshop per year with SBN member companies and workforce health service providers (for example health companies / organisations who may provide nutrition seminars to staff or healthy food initiative such as company-sponsored fruit bowls etc...) |
| Adapt “Workplace Nutrition Toolkit” | Adapt & implement the global Workplace interventions, see document from GAIN, “Workplace Nutrition Toolkit” |

**What success looks like (by the end of 2022)**

| Greater exposure and access for workforce to nutritious products and services at their workplace | More nutritious food and drink options available for workforce at the company, as well as available nutritious services (nutrition and health seminars for workforce, cooking lessons, nutrition workshops etc...) |
## 3.2 Priority Initiative (3)

### (3) Support Development of & Availability for Nutritious Foods/Fortified Products

<table>
<thead>
<tr>
<th>Activity</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stimulate innovation &amp; new product development of nutritious foods /</td>
<td>Identify and assess opportunities to engage in innovation and new product development in foods / food fortification and supplements; focus on local production, low cost</td>
</tr>
<tr>
<td>fortified food products</td>
<td></td>
</tr>
<tr>
<td>Encourage increased retailing and sales of nutritious foods / fortified</td>
<td>Liaise with retailers and wholesalers for fortified foods as a selling point; encourage initiatives which promote the consumption of fortified foods (in-store promotion, sales events, free samples...); alert retailers about new fortified foods in the market</td>
</tr>
<tr>
<td>products &amp; supplements</td>
<td></td>
</tr>
<tr>
<td>Support fortification initiatives in collaboration with the government</td>
<td>Promote and encourage SBN members to understand the need of food fortification and the regulatory environment; share knowledge with relevant stakeholders; if needed – link SBN members with government contacts for information</td>
</tr>
<tr>
<td>Provide technical advice, guidance, training and tools to food and</td>
<td>Build knowledge on nutrition, innovation and development of new products/fortified foods; provide business support through workshops, events, practical tools, research and information; share best practice, tools and templates with members</td>
</tr>
<tr>
<td>nutrition companies</td>
<td></td>
</tr>
</tbody>
</table>

### SBN performance metrics (by the end of 2022)

<table>
<thead>
<tr>
<th>Metric</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>2+ innovations/new product developments/ food fortification opportunities</td>
<td>Identify at least 2 private sector related innovative opportunities on new product development and/or food fortification initiatives</td>
</tr>
<tr>
<td>1+ retailers and/or wholesaler engaged</td>
<td>Engage at least with 1 stakeholder from the retail/wholesale community; establish relationship &amp; provide ongoing dialogue</td>
</tr>
<tr>
<td>1 study review of national fortification program</td>
<td>Liaise with the National Fortification Technical Working Group led by the National Nutrition Centre to improve private sector’s contribution to national fortification initiatives</td>
</tr>
<tr>
<td>1+ share best practice workshop per year</td>
<td>To have at least 1 workshop on food / food fortification development per year; exchange knowledge and experiences between SBN members, external guest speakers</td>
</tr>
</tbody>
</table>

### What success looks like (by the end of 2022)

<table>
<thead>
<tr>
<th>Metric</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Increased sales, variety &amp; availability of new and nutritious products/fortified foods</td>
<td>More product variety (different sources like animal, plant, processed, organic ...), locally produced, higher quality, more people buying, more businesses selling, more foods / fortified products accessible and readily available for consumers of all income levels</td>
</tr>
<tr>
<td>Regular and open dialogue with NNC and MoH on food fortification</td>
<td>Regular meetings with NNC/MoH on private sector food fortification issues; challenges and opportunities are shared and communicated openly; SBN is seen as reputable and vocal body which strongly represents the private sector in food fortification areas</td>
</tr>
</tbody>
</table>
### (4) Increase Nutrition Awareness, Demand and Nutrition Policy Perception

| Provide relevant info and news on nutrition and nutrition policies & regulations to SBN community | Support market research studies; publish market research results at member meetings, workshops, trade fairs, Chamber meetings etc... |
| Identify and support social behavior change communication (SBCC) campaigns | Seek out for ideas for partnerships and investments in nutrition awareness and SBCC campaigns; focus on opportunities which will build demand for nutritious products; identify & regularly approach potential implementing partners with concept (donors) |
| Explore opportunities for promotion of nutritious food products and services | Encourage members for active promotion of their products/services; exchange ideas through member meeting; discuss and communicate ideas and activities from SBN global |

#### SBN performance metrics (by the end of 2022)

| 2+ awareness opportunities / SBCC campaigns identified and possible business partners approached | Identify at least 2 SBCC and nutrition awareness opportunities; formally approach at least 2 potential implementing partners with the SBN’s ideas/concepts with the aim of establishing a nutrition awareness / SBCC campaign; target donors and NGO partners |
| 1 advocacy workshop held | Hold at least 1 advocacy workshop on nutrition awareness / SBCC campaign |
| 1 nutrition awareness / SBCC campaign funded and implemented | Successful roll-out of 1 nutrition awareness / SBCC campaign aimed at increasing the demand and consumption of nutritious foods; either awareness campaign for a particular nutritious consumable or a generic SBCC campaign on nutritious food consumption |
| Regular meetings with SBN Facilitator’s Group and NNC/MoH/non-MoH ministries | Regular meetings prepared, organized and facilitated by SBN Coordinator; provide updates on policies to SBN community |

#### What success looks like (by the end of 2022)

| Positive shift in public perception of the role of private sector in nutrition | Key stakeholders involved in nutrition in Lao PDR have shifted towards a positive attitude regarding how the private sector can contribute towards national nutrition goals, and increase the demand on nutritious products/services |
| Active and open dialogue on nutrition policies & regulations between government & SBN stakeholders | Key stakeholders are actively involved in an ongoing dialogue with government on nutrition policies and regulations |
### SBN Lao PDR Strategy on a Page (2018-2022)

<table>
<thead>
<tr>
<th>Purpose</th>
<th>Establish a Business Network that champions and aligns behind the National Nutrition Strategy through mobilizing the Private Sector’s commitment to scale up nutrition in Lao PDR</th>
</tr>
</thead>
<tbody>

• 1 advocacy workshop held  
• 1 nutrition awareness / SBCC campaign funded and implemented  
• Regular meetings with SBN Facilitator’s Group and NNC/MoH/non-MoH ministries | • Positive shift in public perception of the role of private sector in nutrition  
• Active and open dialogue on nutrition policies & regulations between government & SBN stakeholders |

SBN Lao PDR Strategy 2018-2022_Final_August 2019
3.4 SBN Lao PDR – Vision Beyond 2022

The vision 2018-2022 for the SUN Business Network Lao PDR is to become a leading platform and focal point for promoting nutrition in Laos’s private sector business environment.

By implementing and strengthening our 4 key priorities we will establish the SBN as a unique and indispensable business network for a multi stakeholder market for nutritious foods and food products in Lao PDR.

**Beyond 2022 the SBN will continue to**

- build regional partnerships (ASEAN) and effective national & international networking
- support businesses with health & nutrition initiatives for their workforce to increase their productivity
- Increase food product diversity with new product development and food fortification
- shift consumption patterns towards a more nutritious diet with health and awareness campaigns

If more consumers can afford and are eating nutritious foods, and more businesses are selling them, then the private sector is actively contributing to reducing malnutrition, which will be a big achievement towards meeting the National Nutrition Goals in Lao PDR.

4.3 Facilitator’s Group

**Terms of Reference**

Scope: Collectively, the Facilitator’s Group’s role is to:

- Mobilise business in support of the SUN Movement and support the network to:
  - Recruit new companies to the Network
  - Develop its support for members
  - Champion the role of business in a multi-stakeholder approach to scaling up nutrition at the regional and national level
  - Provide strategic advice on regional and national business and nutrition priorities

Accountability and Decision Making:

WFP and the SBN Coordinator will retain management of the daily operations of the network, its workplan, budget and strategy.
4.4 Membership Platform

The SUN Business Network (SBN) in Lao PDR aims to build a platform of private sector businesses committed to scaling up nutrition in support of Lao PDR’s National Nutrition Strategy. The platform provides the opportunity to:

- Build awareness of the importance of nutrition in the business community
- Engage with companies to advance nutrition through workforce practices, or provision of goods and services
- Improve multi-stakeholder dialogue with business
- Encourage, and track progress of commitments from business to scale up nutrition in previously identified and agreed priority sectors (for example but not limited to): nutrition policies & regulations, new product development, workplace nutrition, food fortification & supplementation, engaging business to build awareness and demand for nutrition & consumer behaviour change.

Membership is currently free and companies can join the network by handing in the completed membership form, committing to scale up nutrition in support of the SUN Movement.

When signing the membership form, businesses also commit to the SUN Business Network “Principles of Engagement” and the “International Code of Marketing of Breastmilk Substitutes” (please refer to Appendix A3).

SBN Lao PDR ensures, that there is a strong representation from Lao owned and operated businesses, and a strong representation from women, as the main decision makers on nutrition within families.
### Rationale for SBN Membership

**Food Production & Processing**
- Cooperate to raise awareness & generate market demand for nutritious foods & drinks
- Advocate for improved regulations to improve ease of business in food & nutrition
- Receive training, tools & templates on building strong business strategies in nutrition
- Broaden customer base & develop better understanding of the market & consumers

**Agriculture**
- Help to grow the market for a diversified food basket
- Support Lao farmers by promoting local & indigenous food products

**Retail**
- Network with organisations along the food value chain
- Discover new food & drink products, advocate for growing market for nutritious foods

**Finance**
- Exposure to potential investment and financing opportunities in the food and nutrition industry
- Ignite growth in nutrition by financing viable and high impact nutrition initiatives along the food value chain

**Transport & Distribution**
- Networking opportunities with organisations looking to expand their supply chains in Lao PDR
- Work together to form distribution partnerships and leverage existing networks to improve distribution efficiency
- Help to make nutritious foods more accessible and affordable by helping to drive down distribution costs

**Establish workforce initiatives to improve nutrition. These can help to increase staff productivity, reduce the burden of sick leave and encourage better nutrition in families and communities of workers.
- Discover CSR opportunities for private sector companies**

### Rationale for being a Stakeholder

**Government**
- Join and support the dialogue for increased engagement with the private sector on nutrition
- Hear collective voice of private sector and understand issues and opportunities for policy & regulatory environment enhancement

**United Nations**
- Stay up to date with the latest trends, developments and research on nutrition in the private sector
- Ensure consolidated unified effort to engage with business on nutrition

**Stakeholders**
- Receive regular updates and network on potential funding opportunities in the nutrition private sector
- Stay informed with latest news & info on business involvement in improving nutrition

**Civil Society Organisations**
- Network with potential private sector partners for technical support on commercial nutrition initiatives
- Learn about best practice commercial nutrition initiatives and trends which can then be applied in the CSO space

**Research & Education**
- Provide input and feedback based on the latest local and international nutrition research and experiments
- Potential career and training opportunities for students and graduates in nutrition

**Nutrition Community**
- Be exposed to the latest market trends and products on nutrition, share with clients and stakeholders
- Participate in broader dialogue of improved nutrition and help to grow consumer demand for nutritious foods

*Targeted as Stakeholder only

Appendix A4: Big Flyer

Available in English and Lao

What is the SUN Business Network (SBN)?

The SUN Business Network is the world’s leading private sector focused nutrition initiative:

- Scaling Up Nutrition (SUN) is a global movement which unites governments, civil society, the United Nations, donors, businesses and researchers in a collective effort to improve nutrition.
- 57 countries in sub-Saharan Africa and Latin America have joined SUN and are committed to developing national nutrition strategies that involve the private sector.
- The SUN Business Network is the private sector branch of this movement, and aims to support businesses in growing the role they play in nutrition - and support Sun Countries to develop national business engagement strategies.
- The SUN Business Network in Lao PDR is supported by the national nutrition committee, technical sector, World Food Programme and the European Union, in collaboration with USAID,的基础上, and Save the Children.

Why Join? Benefits of Membership

- Network with other companies that have an interest in nutrition and expanding the nutrition market.
- Contribute to a collective voice for nutrition in Lao PDR’s private sector.
- Develop common advocacy agendas with other businesses to influence key global processes and events
- Learn and share best practices for investing in nutrition.
- Enable your business to showcase its contribution to improving nutrition and national key opinion terms.
- Receive global exposure as a supporter of improved nutrition on the SUN website.

Membership Commitments

As part of the membership process, we invite organisations to identify at least one of their corporate goals which will also contribute to improving nutrition - these will be your “Nutrition Commitments”.

The SUN Business Network aims to support you in achieving these goals which will enable us to measure the progress your private sector is making towards achieving national nutrition goals.

Examples of nutrition commitments for food companies may include:

- Developing fortified food and drink products for sale to low income consumers.
- Increasing the market penetration of your nutritious food products, making them more accessible to a wider range of consumers.
- Working to reduce the cost of production of nutritious foods, thereby making your products more affordable in the marketplace.

Who can become a Member of the SUN Business Network?

Private Sector Stakeholders:

- Manufacturers
- Food service providers
- Retailers
- Restaurants

Examples of nutrition commitments for non-food companies may include:

- Implementing nutrition education and/or breastfeeding support programs for staff which will help to reduce the burden of illness and increase worker productivity.
- Providing training to or investing in agricultural projects to encourage produce diversification, thereby reducing corporate risk and increasing dietary diversity.
- Empowering women and girls in the workforce and their communities through education programmes and encouragement of women’s leadership roles.
- Implementing clean water and sanitation programmes (ie. WASH) to prevent and control infection and disease.
- Improving access to health services to ensure that women and children stay healthy.

Appendix A5: Small Flyer

Available in English and Lao

What is the SUN Movement?
Scaling Up Nutrition (SUN) is a global movement of 5 global networks:

- Civil Society
- United Nations
- Donors
- Government
- Business

The SUN Movement aims to fight hunger and reduce malnutrition in all its forms worldwide.

Why join? Benefits of Membership

- Networking with other companies (national / global level)
- Building partnerships with other interested organizations on nutrition
- Updates on nutrition, food industry and relevant policy changes
- Practical advice, guidance and trainings through workshops and events
- Access to Corporate Social Responsibility opportunities for your business to improve nutrition in the community

... and more

What is the SUN Business Network (SBN)?

SBN is the private business branch of SUN movement, and provides a platform to build partnerships on a national and global level.

SBN will mobilize companies to invest in nutrition related products and services to improve the food and nutrition situation in Lao PDR.

SBN will support businesses to make nutrition more affordable and available to the consumers.

SBN has more than 400 members in 13 countries from both multinational and national companies.

The SUN Business Network in Lao PDR is supported by the National Nutrition Committee Secretariat, World Food Programme and the European Union, in collaboration with UNICEF, Population Services International and Save the Children.

Membership Nutrition Commitments

Identify at least one of your business goals which will also contribute to improving nutrition in Lao PDR. Those goals will be your "Nutrition Commitments".

The SUN Business Network will monitor and measure all Nutrition Commitments made by our members.

We will track your progress and offer support in achieving your nutrition goals.

Membership is currently free of charge. Please complete the membership form and return the scanned copy via email to:
